What have we been working on?

- The PDP has been in place since 2013.
- In 2020, the PDP WG began reviewing current text in light of feedback.
- Following this review, the Working Group decided, in consultation with the Advisory Council, to embark on a rewrite of the PDP document.
- The PDP WG worked through multiple drafts in consultation with ARIN staff and CEO.
- A final draft has been completed.

Goals of New PDP

- Provide a document that is:
 - More readable
 - Easier to use
 - Accessible to all types of users
 - Concise in each step's requirements
- Clearly lay out the rights of the community to participate in the Policy Development Process, and the actions available to them at each step.

Next Steps

- The PDP WG's new draft of the PDP has been provided to the ARIN Advisory for review.
- The AC will be voting on recommending this text to the Board of Trustees for adoption.
- The recommended text will be published to PPML for community feedback.
- The Board of Trustees will then decide whether to adopt the new PDP text.

We look forward to sharing this draft with
the community and receiving your
feedback!

Thanks!
