

To ensure organizations submitting legitimate requests based on documented need have ongoing access to IP addresses to the maximum extent possible, ARIN's Board of Trustees has requested that an officer of the organization attest to the accuracy of all IP resource requests. You can find more information on this requirement at:

<https://www.arin.net/about/corporate/agreements/attestation/>

You have been identified as an officer of the organization authorized to act on behalf of the organization submitting this request. ARIN is prepared to approve your organization's request based on the data received in the ticket number referenced below, but we will need your explicit attestation that all information related to this request, including any associated Organization (OrgID) and Point of Contact (POC) information, is accurate and valid before proceeding.

- Please review the data submitted in relation to this organization and the ticket referenced below to verify it is accurate.
- After your review, please fill out and sign this form to attest that all data is accurate.

I have reviewed the data presented to ARIN in the ticket referenced below as well as any data submitted in relation to this organization and certify that all data is accurate.
