### Independent Auditor's Report

Board of Trustees American Registry for Internet Numbers, Ltd. Centreville, Virginia

#### Opinion

We have audited the accompanying financial statements of American Registry for Internet Numbers, Ltd. (ARIN), which comprise the statements of financial position as of December 31, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ARIN as of December 31, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ARIN and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Emphasis of Matter**

As discussed in Note 2 to the financial statements, in 2022, the entity adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 842, *Leases*. Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ARIN's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ARIN's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ARIN's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# 1. Organization

American Registry for Internet Numbers, Ltd. (ARIN) was established on August 28, 1997, and began operations on December 22, 1997. ARIN, a not-for-profit member-based organization, supports the operation of the Internet through the management of Internet number resources throughout its service region, which is Canada, the United States and several islands in the Caribbean Sea and North Atlantic Ocean. ARIN coordinates the development of policies by the community for the management of Internet Protocol (IP) number resources and advances the Internet through information and educational outreach.

# 2. Summary of Significant Accounting Policies

### Basis of accounting

The accompanying financial statements are presented on the accrual basis of accounting, which recognizes revenue and support when earned and expenses when incurred and, accordingly, reflect all significant receivables, payables and other liabilities. The financial statements are presented in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

#### Basis of presentation

ARIN follows the requirements of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958-205, *Not-for-Profit Entities*. As required by the Not-for-Profit Entities Topic of the Codification, ARIN is required to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

#### Cash and cash equivalents

ARIN considers all highly-liquid instruments purchased with an original maturity of three months or less and available for general operating purposes to be cash equivalents. Cash accounts maintained in brokerage accounts are reported with investments.

#### Investments

Investments consist of a hedge fund, equity and fixed income mutual funds, equity exchange traded funds, and money market funds. ARIN includes in investments all accounts, including cash equivalents and money market funds, which are managed by investment advisors. Investments are recorded at fair market values as determined by quoted market prices from established exchanges. Investments in fund-of-funds for which a fair market value may not be readily determinable, are carried at net asset value (NAV) as reported by the fund manager and validated by ARIN. Interest and dividend income are accounted for on the accrual basis. Gains and losses on investments, including changes in market value, are reported in the accompanying statements of activities. Investment return, including interest, dividends, realized and unrealized gains (losses) on investments are presented net of investment expenses in the statements of activities.

#### Accounts receivable

Accounts receivable consist of registration fees and are recorded at original invoice, less an estimate made for doubtful receivables. Management determines the allowance for doubtful receivables by regularly evaluating individual customer receivables. Receivables are written off when deemed uncollectible. As of December 31, 2022 and 2021, management established an allowance in the amount of \$28,297 and \$19,754, respectively.

#### Property and equipment

ARIN capitalizes all property and equipment purchased with a cost of \$1,000 or more. Expenditures for additions, renewals and improvements are capitalized; expenditures for maintenance and repairs are charged to expense as incurred. Upon disposal of property, the cost and accumulated depreciation are eliminated from the accounts and any resulting gain or loss is included in operations.

Leasehold improvements are amortized over the shorter of the expected useful life of the improvement or the remaining lease term. Depreciation of property and equipment is provided for using the straight-line method over the estimated useful life of the assets, which range from three to five years.

ARIN capitalizes certain costs related to the development of internal-use software. Costs incurred during the application development phase are capitalized only when ARIN believes it is probable the development will result in new or additional functionality. The types of costs capitalized during the application development phase include employee compensation. Costs related to the preliminary project stage and post-implementation activities are expensed as incurred. Internal-use software is amortized over five years using the straight-line method. When internal-use software that was previously capitalized is abandoned, the cost less the accumulated amortization, if any, is recorded as impairment expense. As of December 31, 2022 and 2021, management determined there has been no impairment in the carrying value of capitalized costs related to the development of internal-use software.

#### Deferred revenue

Payments received in advance of the period in which performance obligations are satisfied are deferred to subsequent periods. Deferred revenue is comprised principally of registration fees received in advance.

#### Net assets

ARIN's resources are classified for accounting and reporting purposes into net asset groups established according to their nature and purpose and based on the existence or absence of donor-imposed restrictions. Accordingly, ARIN classifies net asset groups as follows:

#### Net assets without donor restrictions

Undesignated net assets represent funds that are available for the support of ARIN's operations and are not subject to donor restrictions. The Board may designate net assets without donor restrictions at its discretion. There were no board-designated net assets as of December 31, 2022 and 2021.

### Notes to the Financial Statements

#### Net assets with donor restrictions

Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the restriction was restricted has been fulfilled or both. ARIN had no net assets with donor restrictions as of December 31, 2022 and 2021.

#### Lease accounting

ARIN assesses contracts at inception to determine whether an arrangement includes a lease, which conveys ARIN's right to control the use of an identified asset for a period of time in exchange for consideration. ARIN determines whether the lease classification is an operating or financing lease at the commencement date.

ARIN has operating and finance leases for which right-of-use assets and lease liabilities are recorded in the accompanying consolidated statements of financial position in accordance with FASB ASC 842, *Leases*. ARIN measures its operating lease assets and liabilities using a risk-free rate of return selected based on the term of the lease. ARIN measures its finance lease assets and liabilities using the implicit interest rate included in the lease agreement.

As a matter of policy, the Client has elected to exclude leases with terms of 12 months or less ("Short-Term") from the statement of financial position. ARIN had no short-term leases as of December 31, 2022.

ARIN considered the likelihood of exercising renewal or termination terms in measuring the rightof-use assets and lease liabilities. If ARIN was not reasonably certain that a lease would be extended or terminated early, the additional term was not included in the determination of the lease liability and right-of-use asset.

ARIN's office space includes non-lease components such as common-area maintenance costs, utilities, and other maintenance costs. ARIN's colocation data center leases include non-lease components such utilities and data services. ARIN has elected to include non-lease components with lease payments for the purpose of calculating lease right-of-use assets and liabilities to the extent that they are fixed or variable based on an index or rate. Non-lease components that are not fixed are expensed as incurred as variable lease payments.

#### Revenue recognition

#### Registration maintenance fees

Registration maintenance fees are revenues received from RSP customers and End User customers for internet number resource services to be received subsequent to the initial registration service period. The annual registration maintenance fee allows customers continued use of the internet number resources, the IP/ASN registry services and the resource management services for an additional 12-month period. ARIN's performance obligation exists and is determined to be satisfied evenly throughout the term using the output method and therefore the revenue is recognized over time. Customers are billed annual registration maintenance service fees 60 days prior to their

### Notes to the Financial Statements

anniversary month. Revenue is deferred upon billing and is later recognized equally over the 12month period beginning with the anniversary month.

On January 1, 2022 all End User customers were transitioned to RSP customers.

#### Registration allocation and assignment fees

Registration allocation and assignment fees are revenues received from Resource Services Plan (RSP) customers and End User customers for use of allocations and assignments of initial internet number resources throughout a 12-month term. In addition to the allocation and assignment of internet number resources, the ARIN systems offer many methods and tools for the customer to manage and secure their resource records. The initial allocation and assignment of internet resources permits the customer to use the resource records, the IP/ASN registry services and the resource management services for a 12-month period. ARIN's performance obligation exists and is determined to be satisfied evenly throughout the term using the output method. Therefore, revenue is deferred when payment is received and is then recognized equally over the 12-month period. Registration fees are collected in advance for a 12-month period. Use of the number resources does not start until payment is received. Payments are not refundable once service is initiated.

There are limited economic factors that would affect the nature, amount and timing of cash flows or uncertainty or revenue recognition as IP addresses are limited and in demand. ARIN did not have any impairment or credit losses on any receivables arising from contracts with customers. There are also no incremental costs of obtaining a contract and no significant financing components or variable considerations in pricing. Fixed fees are charged based on service category and IP block size.

#### Network transfers

Network transfer fees are charged for services performed to evaluate the appropriateness and legality of requested internet number resource transfers between community members. The network transfer evaluation service begins when payment is received and ends when the transaction ticket is closed. Revenue is recognized when the transfer evaluation service is completed at a point in time at which ARIN's performance obligation is completed.

#### Contributions

Unconditional contributions received are recorded as an increase in net assets with or without donor restrictions depending on the existence and/or nature of any donor restrictions in the period acknowledged. When a restriction expires (that is, when a stipulated time restriction ends or the purpose of the restriction is accomplished), net assets with a donor time and/or purpose restriction are reclassified to net assets without donor restriction reported in the statements of activities as net assets released from restrictions. Donor-restricted contributions are reported as net assets without donor restrictions are met in the same period received. Conditional promises to give are recognized when the conditions on which they depend are substantially met. There were no conditional contributions as of December 31, 2022 and 2021.

#### Functional allocation of expenses

The statements of functional expenses present expenses by function and natural classification. Expenses directly attributable to a specific functional area of ARIN are reported as expenses of those functional areas. The financial statements report certain categories of expenses that are

attributable to one or more program or supporting functions of ARIN which are allocated among the program and supporting service categories based on headcount. These costs include, but are not limited to: certain management and staff expenses, general services, rent, as well as depreciation, interest and taxes.

#### Income taxes

ARIN is a qualifying not-for-profit organization as defined in Section 501(c)(6) of the Internal Revenue Code and is exempt from federal income taxes. Management evaluated ARIN's tax positions and concluded that ARIN had taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. ARIN recognizes interest expense and penalties related to income taxes on uncertain tax positions in management and general expenses on the statements of activities and change in net assets and accounts payable and accrued expenses in the statements of financial position. No interest expense and penalties related to income taxes of the years ended December 31, 2022 and 2021.

ARIN files income tax returns in the U.S federal jurisdiction. In accordance with FASB ASC 740, *Income Taxes*, ARIN recognizes tax liabilities for uncertain tax positions when it is more likely than not that a tax position will not be sustained upon examination and settlement with various taxing authorities. Liabilities for uncertain tax positions are measured based upon the largest amount of benefit that is greater than 50% likely of being realized upon settlement. The guidance on accounting for uncertainty in income taxes also addresses de-recognition, classification, interest and penalties on income taxes, and accounting in interim periods. With a few exceptions, ARIN is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before fiscal year 2019. Management has evaluated ARIN's tax positions and has concluded that ARIN has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance.

#### Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

#### Financial instruments and credit risk

ARIN's assets that are exposed to credit risk consist primarily of cash and cash equivalents, investments, and accounts receivable. Non-interest-bearing bank accounts are insured by the Federal Deposit Insurance Corporation (FDIC) with a limit of \$250,000 per depositor as of December 31, 2022 and 2021. As of December 31, 2022 and 2021, ARIN had cash and cash equivalents of approximately \$2.6 million and \$2.1 million, respectively, in excess of FDIC insured limits. ARIN has never experienced any losses related to these balances.

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that

such changes could materially affect the investment balances and the amounts reported in the statements of financial position.

Historically, ARIN has not experienced significant losses related to accounts receivable balances and, therefore, believes that the credit risk related to them is minimal.

#### Recent accounting pronouncements adopted

On January 1, 2022 (the adoption date), management adopted Financial Accounting Standards Board's (FASB) Accounting Standards Updates (ASU) 2016-02, *Leases* (ASC 842), and the additional ASUs issued to clarify and update the guidance in ASU 2016-02 (collectively, ASC 842). ASC 842 modifies lease accounting for lessees to increase transparency and comparability by recording lease assets and liabilities for operating leases and disclosing key information about leasing arrangements. Management adopted ASC 842 using the modified retrospective transition method, under which amounts in prior periods presented herein were not restated. For contracts existing at the time of adoption, management elected the package of practical expedients and did not reassess (i) whether any are or contain leases, (ii) lease classification, and (iii) initial direct costs. The adoption of ASC 842 resulted in the following as of the adoption date:

Recognition of: Operating lease right-of-use assets Operating lease liabilities	\$ \$	3,117,622 4,626,788
Derecognition of:		
Deferred rent	\$	567,252
Deferred tenant improvements	\$	941,914
Total	\$	1,509,166

In September 2020, the FASB issued ASU 2020-07, Not-for-Profit Entities (ASC 958): Presentation and Disclosures by Not-For-Profit Entities for Contributed Nonfinancial Assets. The ASU improves the transparency of contributed nonfinancial assets through enhancements to presentation and disclosures. The ASU requires that a nonprofit present contributed nonfinancial assets as a separate line item in the statement of activities apart from contributions of cash or other financial assets. Information that shows the contributed nonfinancial assets disaggregated by category will be required to be disclosed. In addition, the ASU requires that for each type of contributed nonfinancial asset the following will be disclosed: (a) policy (if any) on liquidating rather than using the contributed nonfinancial assets, (b) qualitative considerations on whether the contributed nonfinancial assets were liquidated or used during the reporting period and, if used, a description of how the asset was employed should be included, (c) any donor imposed restrictions related to contributed nonfinancial assets, (d) valuation methods and inputs utilized to determine a fair value measure at initial recognition, and the principal and most advantageous market utilized to calculate fair value if it is a market in which the nonprofit is restricted by the donor from selling or utilizing the contributed nonfinancial assets. This ASU was applied on a retrospective basis and was effective for the ARIN's fiscal year ending December 31, 2022. The adoption of this guidance did not have a material impact to the financial statements and disclosures. Refer to Note 6 for the enhanced disclosures related to contributed nonfinancial assets.

# Notes to the Financial Statements

#### Recent accounting pronouncement not yet adopted

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments-Credit Losses* (ASC 326), which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost. This guidance is effective for ARIN's fiscal year ending December 31, 2023. Management is currently evaluating this ASU to determine the impact, if any, on its financial statements and disclosures.

### 3. Investments and Fair Value Measurements

FASB ASC 820, *Fair Value Measurement*, established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

*Level 1* inputs consist of unadjusted quoted prices in active markets for identical assets and provide highest quality inputs.

*Level* 2 inputs are based primarily on quoted prices for identical assets in inactive markets or similar assets in active or inactive markets or other significant observable inputs.

*Level 3* inputs provide the lowest quality inputs because there are no significant observable inputs.

ARIN uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, ARIN measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Money market funds reported as Level 1 inputs have been valued at the closing price reported by the fund sponsor from an actively traded exchange. Exchange-traded funds have been valued at the closing price reported on the active market in which the individual securities are traded. Mutual funds have been valued based on the net asset value of shares held by ARIN as determined by quoted market prices at the end of the year. Certificates of deposit are valued at amortized cost based upon observable inputs, such as interest rates, which approximates fair value and are therefore classified as Level 2 assets. There have been no changes in the valuation methodologies during the current year.

ARIN has holdings within an alternative investment hedge fund which includes investments in both nonmarketable and market-traded securities. Given the absence of market quotations, the alternative investment fund is recorded at NAV which is estimated using information provided to ARIN by the investment manager. The value is based on estimates that require varying degrees of judgment.

The alternative investment may indirectly expose ARIN to the effects of securities lending, short sales of securities, and trading in futures and forward contracts, options, swap contracts, and other derivative products. While these financial instruments contain varying degrees of risk, ARIN's exposure with respect to each such investment is limited to its carrying amount (fair value as described above) in the investment. The financial statements of the investee are audited annually by nationally recognized independent auditors. Additionally, ARIN's investment advisor performs

### Notes to the Financial Statements

on-going due diligence of the fund which includes benchmarking and comparing the results of the fund to certain indexes. The investment advisor also has regular calls with management of the funds and meets periodically with the finance committee to discuss the performance of the funds.

ARIN does not directly invest in the underlying securities of the alternative investment fund and due to restrictions on transferability and timing of withdrawals from the limited partnerships, the amounts ultimately realized upon liquidation could differ significantly from reported values that are based on current conditions.

The alternative investment fund includes investments in funds of hedge funds which seek attractive risk-adjusted returns with diversification through the use of a multi-strategy philosophy. The fund has a notice period of 90 days, quarterly redemption frequency and no unfunded commitment as of December 31, 2022 and 2021.

ARIN has determined the fair value of certain assets through application of FASB ASC 820, *Fair Value Measurement*. Investments that are measured at fair value using NAV per share practical expedient have not been classified in the fair value hierarchy table below. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy table to the amounts presented in the statements of financial position.

	2022 Total		Level 1	Level 2	L	evel 3	NAV
Money Market funds Exchange trade funds:	\$ 3,576,234	\$	3,576,234 \$	-	\$	\$	-
Equities Mutual Funds:	992,913		992,913	-		-	-
Equities	8,375,810		8,375,810	-		-	-
Fixed income	12,304,463		12,304,463	-		-	-
Multi-strategy alternative							
funds	2,807,321		-	-		- 2	2,807,321
Total investments, at fair value	\$ 28,056,741	\$	25,249,420 \$	-	\$	-\$2	2,807,321
	2021 Total		Level 1	Level 2	L	.evel 3	NAV
Money Market funds Exchange trade funds:	\$ 2021 Total 3,523,440	\$		Level 2		.evel 3 - \$	NAV -
Exchange trade funds: Equities		\$					<u>NAV</u>
Exchange trade funds: Equities Mutual Funds:	3,523,440	-	3,523,440 \$				<u>NAV</u>
Exchange trade funds: Equities	3,523,440 1,312,586	-	3,523,440 \$ 1,312,586				<u>NAV</u> - - -
Exchange trade funds: Equities Mutual Funds: Equities	\$ 3,523,440 1,312,586 10,117,609	-	3,523,440 \$ 1,312,586 10,117,609			- \$ - - -	NAV - - - 2,833,760

Fair values of investments measured on a recurring basis as of December 31, 2022 and 2021 are as follows:

Cash accounts maintained in brokerage accounts are not included in the above tables because they are recorded at cost.

The table below reconciles total investments to the statements of financial position as of December 31, 2022 and 2021:

	2022	2021
Investments held at fair value Investments held at cost	\$ 28,056,741 3,382,014	\$ 31,841,779 3,439,984
	\$ 31,438,755	\$ 35,281,763

Realized and unrealized losses and gains on investments are reported net of related expenses, such as custodial, commission, and investment advisory fees. There were no internal management expenses for the years ended December 31, 2022 and 2021.

### 4. Accounts Receivable

The amounts due from accounts receivable as of December 31, 2022 and 2021, are as follows:

	2022	2021
Accounts receivable Less allowance for doubtful accounts	\$ 868,435 \$ (28,297)	927,520 (19,754)
Total accounts receivable, net	\$ 840,138 \$	907,766

# 5. Property and Equipment

Property and equipment and accumulated depreciation as of December 31, 2022 and 2021, are as follows:

		2022	2021
ADIN online detailant	÷	44 752 547 Č	45 77/ 95/
ARIN online database	\$	<b>16,752,567</b> \$	15,776,856
Computer equipment		5,714,810	6,181,119
Computer software		1,059,302	1,006,950
Furniture and fixtures		513,126	505,097
Office equipment		38,547	38,547
Leasehold improvements		2,405,189	2,353,189
		26,483,541	25,861,758
Less accumulated depreciation and amortization		(22,457,830)	(21,447,052)
	Ş	4,025,711 \$	4,414,706

Depreciation and amortization expense for the years ended December 31, 2022, and 2021 was \$1,655,011 and \$1,708,842, respectively. For the ARIN online database, accumulated depreciation was \$14,240,378 and \$13,343,818 as of December 31, 2022 and 2021, respectively. Amortization

expense for the ARIN online database was \$896,559 and \$888,196 for the years ended December 31, 2022 and 2021, respectively.

# 6. Contributed Nonfinancial Assets

ARIN receives in-kind contributions of certain technical services from organizations in the Internet community. These donated services help ARIN provide Reverse DNS internet services to the Internet community. Donated services are recognized as contributions if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are performed by people with those skills, and would otherwise be purchased by ARIN. ARIN recognizes in-kind contribution revenue and a corresponding expense in an amount approximating the fair value of the services at the time of donation. Under FASB ASC 820 guidance, ARIN uses the cost approach to determine the fair value due to the specialized nature of the donated services. The estimated replacement cost for ARIN to build and operate the infrastructure to perform these donated services includes:

	Computer						
	Personnel		Hardware and		Telecom and		
	Cost		Software Cost		Colocation Cost		Total
Reverse DNS	\$ 145,000	\$	105,000	\$	150,000	\$	400,000

All donated services and assets were utilized by ARIN program services. There were no donor-imposed restrictions associated with the donated services.

# 7. Retirement Plan

ARIN has a 401(k) retirement plan, which is available to all employees within their first month of hire. ARIN makes a discretionary matching contribution equal to 200% of the first 3% of salary deferred and 100% of the next 3% deferred. Total retirement plan contribution expense for 2022 and 2021 was \$1,373,983 and \$1,277,586, respectively.

# 8. Related Party Transactions

On October 24, 2003, the four Regional Internet Registries (RIR) entered into a memorandum of understanding to form the Number Resource Organization (NRO). The NRO memorandum was originally signed by ARIN, the Asia Pacific region registry (APNIC), the Latin American region registry (LACNIC) and the European region registry (RIPE NCC). The fifth RIR for the African region, AFRINIC, joined by signing the NRO memorandum of understanding in 2005.

The purpose of the NRO is to undertake joint activities of the RIRs, including joint technical projects, liaison activities and policy coordination. The NRO Executive Council consists of one person selected by each RIR. NRO expenses are borne by the RIR signatories on an equal basis of each RIR unless specifically superseded by a specific or general per capita agreement by the NRO Executive Council.

RIRs may donate funds, personnel, services and equipment to the NRO at their individual discretion in addition to the provisions for cost sharing. ARIN's contribution to finance the operations of NRO for 2022 and 2021 were \$126,222 and \$136,072, respectively. These expenses are reflected within internet support expense in the statements of functional expenses.

The five Regional Internet Registries (RIRs) have an agreement with the Internet Corporation for Assigned Names and Numbers (ICANN) for the distribution of Internet numbers. Based on the NRO coordination function described above, the RIRs pay ICANN \$650,000 annually for this IANA registration services and an additional voluntary contribution of \$183,000 for a total of \$823,000 annually. This expense is allocated to each RIR on a pro-rated basis proportional to the RIRs total registration services fees. During 2022 and 2021, ARIN paid ICANN a total of \$225,763 and \$200,812, respectively. These expenses are reflected within ICANN support expense in the statements of functional expenses.

# 9. Commitments and Contingencies

#### Lease commitments

ARIN has operating and finance lease arrangements which expire at various dates from fiscal year 2023 to fiscal year 2027.

All lease agreements for the year ended December 31, 2022 are accounted for under FASB ASC 842; for the year ended December 31, 2021, all leases were accounted for under the previous lease standard, ASC 840. Upon adoption of FASB ASC 842 and as discussed in Note 2, ARIN elected numerous practical expedients with respect to leases existing as of January 1, 2022.

Rental payments under these leases include base rental amounts for the terms of each lease unless the lease contains variable costs based on an index or rate. If a lease does include indexed or variable costs at a specific rate, ARIN includes those costs as part of operating lease expense.

#### **Operating Leases**

ARIN's operating leases do not contain residual value guarantees. ARIN has recorded the right-ofuse asset balance in the accompanying consolidated statement of financial position as of December 31, 2022, for the following operating leases:

- a) Office space for its operations in Northern Virginia. ARIN leased 25,684 square feet under this arrangement. The lease expires in January 2027. Rental payments under lease are approximately \$767,400 per year and increase 2.5% each year. The lease includes two 5-year renewal options, however ARIN has determined that it is not reasonably certain it will exercise the options to extend. ARIN's office lease provides for certain incentives in the form of a tenant improvement allowance provided for leasehold improvements. ARIN utilized \$1,930,153 of the tenant improvement allowances provided by the lease. The leasehold improvements are included with property and equipment, net of accumulated depreciation in the accompanying statements of financial position.
- b) Colocation data center cage facility and related services in Northern Virginia. ARIN is renting space for 10 cabinets. The lease expires in February 2023. The lease includes an option to renew each year for 12 additional months with an increase in cost of 5%. ARIN is reasonably certain to renew the lease through 2027. Rental payments under the lease are approximately \$110,800 per year.
- c) Colocation data center cage facility and related services in Northern California. ARIN is renting space for 1 cabinet. The lease expires in June 2025. The lease includes an option to renew each year for 12 additional months with an increase in cost of 5%. ARIN is reasonably

certain to renew the lease through 2027. Rental payments under the lease are approximately \$23,900 per year.

d) Colocation data center cage facility and related services in Washington state. ARIN is renting space for 1 cabinet. The lease expires in April 2023. The lease includes an option to renew each year for 12 additional months with no increase in cost. ARIN is reasonably certain to renew the lease through 2027. Rental payments under the lease are approximately \$2,800 per year.

#### Finance Leases

ARIN finance leases do not include variable lease payments. ARIN has recorded the right-of-use asset balance in the accompanying statement of financial position as of December 31, 2022, for the following finance leases:

- a) Computer equipment for various colocation data centers. ARIN leased various computer related devices. The lease expires in June 2025. Rental payments under the lease are approximately \$110,800 per year. The lease includes a mandatory buyout payment of \$1 at the end of the lease.
- b) Computer equipment for various colocation data centers. ARIN leased various computer related devices. The lease expires in September 2025. Rental payments under the lease are approximately \$40,600 per year. The lease includes a mandatory buyout payment of \$1 at the end of the lease.

The maturity of the lease liability under the ARIN's operating and finance leases as of December 31, 2022 is as follows:

Years Ending December 31,	Operating Leases	Finance Leases
2023 2024 2025 2026	\$ 911,021 \$ 937,282 964,409 992,420	171,894 171,894 96,096 -
2027	107,956 3,913,088	439,884
Less effects of discounting	(116,345)	(30,423)
Lease liabilities recognized	\$ 3,796,743 \$	409,461

Within the statement of functional expenses, operating and variable lease expense is included in "Rent and occupancy" and "Engineering operations", amortization expense is included in "Depreciation and amortization", and interest expense is included in "Engineering operations".

These amounts for the year ended December 31, 2022 were as follows:

Operating lease costs (costs resulting from lease payments) Amortization of right-of-use assets - finance leases	\$ 637,114 69,913
Interest on lease liabilities - finance leases Variable lease costs (excluded from lease payments)	10,509 324,402
Total lease costs	\$ 1,041,938

Supplemental quantitative information related to operating and finance leases for the year ended December 31, 2022:

·	Operating Leases	Finance Leases
Cash paid for amounts included in the measurement of lease liabilities	\$ 888,939 \$	75,797
Weighted - average remaining lease terms Weighted - average discount rate	4.11 1.42%	2.56 5.91%

Previous lease standard - Fiscal year 2021

ARIN is obligated under various operating leases for office space and office equipment. Deferred rent is recorded in relation to ARIN's escalating lease payments for office space. The lease provides two optional renewal terms of five years each. ARIN also utilized \$1,930,153 of the tenant improvement allowances provided by the lease. The leasehold improvements are included with property and equipment, net in the accompanying statement of financial position and is being amortized over the life of the lease. A deferred rent liability is recorded on the statement of financial position in relation to the tenant improvement allowance and escalating lease payments.

Future minimum lease payments were as follows as of December 31, 2021:

2022 2023 2024 2025 2026 Thereafter	\$ 748,689 767,395 786,615 806,349 826,597 69,882
	\$ 4,005,527

Rent expense totaled \$490,602 for the year ended December 31, 2021.

#### Future commitments

In 2016, ARIN's Board approved contributing up to \$2,000,000 to the Internet Engineering Task Force (IETF) Endowment, reflecting this strong commitment by the ARIN community to the Internet protocols and related work of the IETF. ARIN paid \$1,000,000 in 2016 and will make the additional \$1,000,000 payment at a future date, once all the Regional Internet Registry (RIRs) and the Internet Society determines such date and certain conditions are satisfied.

In 2015, the NRO Executive Council, which includes ARIN, entered into a formal commitment towards safeguarding the stability of the RIR system by establishing a Joint RIR Stability Fund. The Joint RIR Stability Fund is to guarantee the continued operation of all five RIRs and to ensure ongoing coordination support for the policy development communities of the five RIRs. ARIN's pledge of \$250,000 is only to be paid when certain conditions are satisfied.

#### Severance agreement commitments

ARIN provides various severance plans to employees within various levels of the organization under specific conditions and for various time periods up to 12 months.

#### Contracts

ARIN has entered into agreements with various properties and service organizations for conference and meeting facilities in 2023 and beyond. Certain agreements contain various clauses whereby ARIN may be liable for damages in the event of cancellation or lower-than-anticipated attendance. Management of ARIN does not believe that any material losses will be incurred under any of these agreements.

# 10. Net Assets Without Donor Restrictions

#### Net Assets Without Donor Restrictions

Net assets without donor restrictions are available to finance the general operations of ARIN. The only limits on the use of net assets without donor restrictions are the purposes specified in ARIN's articles of incorporation and those limitations resulting from the nature of ARIN and the environment in which it operates.

# 11. Liquidity and Availability of Financial Assets

ARIN regularly monitors liquidity required to meet its annual operating needs and other contractual commitments while also striving to maximize the return on investment of its funds not required for annual operations. Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, comprise the following as of December 31, 2022 and 2021:

		2022	2021
Cash and cash equivalents Accounts receivable, net Investments		2,870,548 \$ 840,138 31,438,755	5 2,356,179 907,766 35,281,763
Financial assets available to meet cash needs for general expenditures within one year	\$	35,149,441 \$	38,545,708

ARIN has various sources of liquidity at its disposal, including cash and cash equivalents, and long-term equity funds.

As part of liquidity management, ARIN may invest cash in excess of daily requirements in short-term investments. ARIN assesses its operating budget and cash flow projections monthly to monitor the availability of resources to support operations.

# 12. Subsequent Events

ARIN has evaluated its December 31, 2022 financial statements for subsequent events through April 19, 2023, the date the financial statements were available to be issued. ARIN is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
