

# **Draft Policy ARIN-2022-11:**

**Clean-up of NRPM – Introduction of Section 2.17**

**Alison Wood, ARIN AC**

# Draft Policy ARIN-2022-11

**Shepherds:** Alison Wood, Chris Woodfield

## History:

[Proposal](#)

15 June 2022

[Draft Policy](#)

23 August 2022

# Draft Policy ARIN-2022-11

## Current Text (23 August 2022)

- **Problem Statement:**

- Although the term “IANA” appears throughout Section 10 of the NRPM, there is no reference to any definition of the term. This proposal defines the term with reference to appropriate ICANN documentation.
- The term Internet Number Resources is referenced in several sections of the NRPM but is not defined.

- **Policy Statement:**

- Introduce new sections 2.17 and 2.18 that reads as follows:
  - 2.17 Internet Assigned Numbers Authority (IANA) Internet Assigned Numbers Authority (IANA) refers to a set of functions which includes the global coordination of Internet number resources.
  - 2.18 Internet Number Resources Internet number resources are the unique identifiers allocated by IANA and issued by the RIRs. This includes Internet Protocol (IP) addresses (IPv4 and IPv6) and Autonomous System Numbers (ASNs).

# Draft Policy ARIN-2022-11

- **Timetable for Implementation:** Immediate
- **Comments:**
  - Although this proposal was drafted in the course of an editorial review of Section 2 of the NRPM, the addition of a new definition may not be considered purely editorial in nature and so this proposal is not being presented as strictly editorial.

# Draft Policy ARIN-2022-11

## Questions for the Community

1. Do you approve of the definition for IANA?
2. Do you approve of the explanation of Internet Number Resources?
3. Should any verbiage be added or removed?

**Any Questions**
