

2027 Registration Services Plan Service Categories and Fees

The table below displays the annual Registration Services Plan fee per service category for ARIN customers. The aggregate block size consists of the total Internet number resource (IPv4, IPv6, or Autonomous System Numbers [ASNs]) holdings of an organization.

Note that the annual Registration Services Plan fee for each service category is subject to an annual increase (as approved by the ARIN Board of Trustees) of no greater than 5%.

Service Category	Fee	IPv4 Aggregate Block Size	IPv6 Aggregate Block Size	Autonomous System Numbers (ASNs)
3X-Small*	\$285	/24 or smaller	/40 or smaller	1-3 ASNs
2X-Small	\$575	Larger than /24, up to and including /22	Larger than /40, up to and including /36	4-15 ASNs
X-Small	\$1,155	Larger than /22, up to and including /20	Larger than /36, up to and including /32	16-63 ASNs
Small	\$2,315	Larger than /20, up to and including /18	Larger than /32, up to and including /28	64-255 ASNs
Medium	\$4,630	Larger than /18, up to and including /16	Larger than /28, up to and including /24	256+ ASNs
Large	\$9,260	Larger than /16, up to and including /14	Larger than /24, up to and including /20	
X-Large	\$18,520	Larger than /14, up to and including /12	Larger than /20, up to and including /16	
2X-Large	\$37,040	Larger than /12, up to and including /10	Larger than /16, up to and including /12	
3X-Large	\$74,090	Larger than /10, up to and including /8	Larger than /12, up to and including /8	
4X-Large	\$148,175	Larger than /8, up to and including /6	Larger than /8, up to and including /4	
5X-Large	\$296,350	Larger than /6	Larger than /4	

Please note that this fee schedule change only applies to the RSP fees and does not affect the pricing of transactional fees.
