Recommended Draft Policy 2012-2

IPv6 Subsequent Allocations
Utilization Requirement

2012-2 - History

1. Origin: ARIN-prop-159 (Nov 2011)
2. AC Shepherds: Heather Schiller, Cathy Aronson
3. Presented at ARIN 29, 30 and PPC At NANOG 57
4. AC found current version to meet Principles of Internet Resource Policy and recommended it for adoption.
5. Text and assessment online & in Discussion Guide
https://www.arin.net/policy/proposals/2012_2.html

2012-2 – Summary

- This will allow an additional way for ISPs to receive a subsequent allocation.
 - It will allow ISPs who have allocated at least 90% of their space to serving sites to qualify for an additional allocation as long as the block size allocated to each serving site is justified based on the number of customers at the largest single serving site.

2012-2 – Status at other RIRs

No similar proposals/discussions.

2012-2 – Staff Assessment

Staff Comments: Issues/Concerns?

- The updated text in 6.5.3b adds consistency and clarity to the policy by allowing the block size for the subsequent allocation to be based on the same criteria used to determine the block size for the initial allocation.
- This policy is clear and implementable as written.

Implementation: Resource Impact? – Minimal (3 mos.)

- Updated guidelines and staff training

2012-2 – Legal Assessment

- This policy does not create significant legal issues.

2012-2 – PPML Discussion

- **Recommended Draft Policy**
 - No posts for or against
