2013 ARIN Elections

Jud Lewis

Membership Coordinator

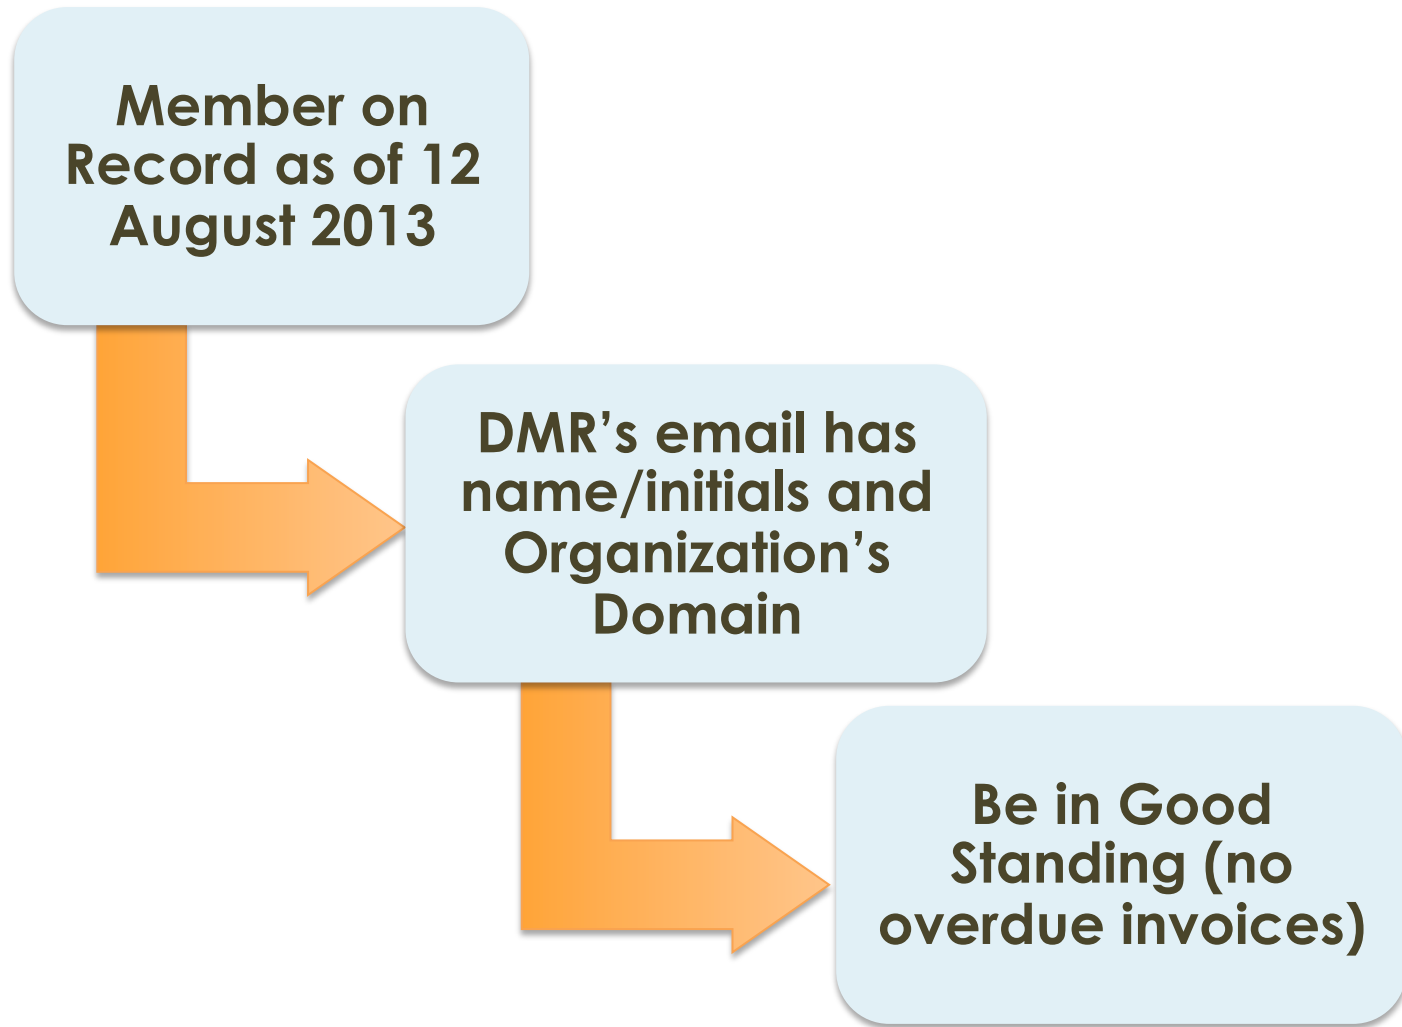

What's New?

- New Election System! Voting is easier with no separate login credentials needed.
- Elections are now streamlined, all closing at the same time.
- DMR Eligibility Cutoff moved earlier (from 14 to 60 days before election).

Voting Details

What?	Who?	How?	When?
Number Resource Organization Number Council (NRO NC)	NANOG 59 and ARIN 32 Attendees (non DMR)	Through link emailed directly to you.	9am EDT 7 Oct-5pm EDT 20 Oct
Board of Trustees, Advisory Council, &NRO NC	Eligible Designated Member Representatives (DMRs)	Follow instructions emailed directly to you.	5pm EDT 10 Oct-5pm EDT 20 Oct

What Makes a DMR Eligible?

Logging In – DMRs with ARIN Online Accounts

The screenshot shows the ARIN website interface. At the top left is the ARIN logo with the tagline "American Registry for Internet Numbers". A search bar is located at the top right. A large blue arrow points from the top right towards the center, containing the text "Step 1: Go to www.arin.net". Below this, a second blue arrow points from the center towards the left, containing the text "Step 2: Login". The main content area features a "REGISTRATION NOW OPEN" banner with the ARIN logo and "@NANOG@". To the left of the banner is a login form with fields for "username:" (with a "new user?" link) and "password:" (with an "assistance" link), and a "log in" button. Below the login form is an "IP6 ENABLED" logo. To the right of the banner is a "Highlights" section with a "Site Search" button and a list of links: "Request Resources", "Draft Policies & Proposals", "Internet Governance", "Legacy Resource Information", "Meetings", "IPv6 Info Center", "New to ARIN?", "Pay Invoice", "Resource Reinstatement", "Update Billing POC", "ARIN Mailing Lists", and "Jobs @ ARIN". At the bottom left, there is an "Announcements" section with a date "Fri, 27 September 2013" and a headline "Final Slate of Candidates Announced for ARIN Board of Trustees, Advisory Council, and NRO NC", accompanied by the NRO logo and the text "ARIN is a member of the Number Resource". At the bottom right, there is a "Transfer Resources" button and a "More Information..." link.

Voting Now Open for ARIN 2013 Elections – FINAL

ARIN

Sent: Friday, September 27, 2013 4:06 PM
To: Judson Lewis

Dear Judson,

The polls are now open for the elections to fill two seats on the ARIN Board of Trustees, five seats on ARIN Advisory Council (AC), and one seat on the Number Resource Organization Number Council (NRO NC). The polls close at 5:00 PM EDT, 20 October.

As the Designated Member Representative (DMR) you alone may cast this important ballot for your Organization/s: **arin**.

ARIN has implemented a new election system that makes voting easier. Instead of using separate election system login credentials, you can access your ballot directly using the link in the voting instructions below.

A compilation of candidate questionnaire responses in PDF is available at:

https://www.arin.net/participate/elections/candidate_bios.pdf

Additionally we encourage you to review and submit statements of support at:

<http://teamarin.net/2013-elections/>

If you have any questions about voting or encounter problems with the system, please immediately contact ARIN Communications and Member Services at info@arin.net.

Regards,

Communications and Member Services
American Registry for Internet Numbers (ARIN)

How to Vote:

1. Click on this link to access your ballot: <https://www.bigpulse.com/rr?MfOCANUki7or0YVXlgqGeehcd4RI6>
2. Select up to two candidates for the Board of Trustees then click "submit vote".
3. Select up to five candidates for the Advisory Council then click "submit vote".
4. Select up to one candidate for the NRO NC then click "submit vote".
5. A thank you screen appears including a link to view your vote receipt. You will also be emailed a copy of your vote receipt.

Step 1: Open Email from info@arin.net

Step 2: Click URL and Access Your Ballot

2013 ARIN Elections Test

2013 Board of Trustees Election (ID# 82013)

You voted for the following:

- Dr. Vinton (Vint) Cerf (ID# 15592837)
- Bernadette Lewis (ID# 15592836)

Vote receipt number: **YQeLhAsqQn**

This vote was recorded: Thursday 26 September 2013 13:06 EDT

This vote has a weight of: 6

2013 Advisory Council Election (ID# 82014)

Empty vote recorded.

Vote receipt number: **r2JSJppUD6**

This vote was recorded: Thursday 26 September 2013 13:08 EDT

This vote has a weight of: 6

2013 NRO NC Election (ID# 82015)

You voted for the following:

- Devon Gayle (ID# 15592847)

Vote receipt number: **LseTLbxq7S**

This vote was recorded: Thursday 26 September 2013 13:13 EDT

This vote has a weight of: 3

You voted for the following:

- Jason Schiller (ID# 15592846)

Vote receipt number: **pnKFm4UAue**

This vote was recorded: Thursday 26 September 2013 13:11 EDT

This vote has a weight of: 3

ID# is the permanent identification number of the selected choices in the database.

** Note: To protect the anonymity of your vote it is important not to disclose your vote receipt. For example, sometimes vote receipts and votes are published as part of the vote verification process.

[close window](#)

Note that a Voting Receipt will be automatically emailed to you for each election.

Multiple Voting Explained

If you want to cast all of your ballots for the same group of candidates, then leave the “set the weight to” field as is (by default, this field will match your total vote weight).

Number Resource Organization Number Council (NRO NC)

NRO NC Candidates

- Devon Gayle (*not in attendance*)
- Jason Schiller

Devon Gayle

I am a strong advocate for the advancement of technology for humanity. Therefore, serving on the NRO Number Council would provide me with an opportunity to bring passionate support and dedication in assisting with ensuring that the internet continue to grow and develop for the benefit of humanity globally. This goal I would be able to achieve while providing visibility and bringing focus to Jamaica and the Caribbean Region as a valuable member of the Global Internet Community.

Jason Schiller

I would like to serve on the NRO NC because there are a number of global issues surrounding IPv4 depletion and IPv6 adoption, and I believe it is important that we resolve these issues before the Internet suffers a tragedy of the commons. As a network engineer for a large content provider, I will bring level headed operations and engineering mentality to the table to in order to provide good policy which is in the best interest of the Internet as a whole.

At my core, I am an engineer and want to solve problems on their technical merit.

Advisory Council

Advisory Council Candidates

- Cathy Aronson
- Owen Delong
- Andrew Dul
- Jesse Geddis
- Scott Leibbrand
- Tina Morris
- Milton Mueller

Cathy Aronson

I have been on the Advisory Council almost since the beginning. I know why things are the way they are because I was there. I believe that this institutional knowledge is important as we try to make policy for IPv6 and work our way through exhaustion of IPv4. I also served a term on the first ASO Address Council and worked with other regions on the globally coordinated IPv6 policy. I have been a customer of ARIN as well as RIPE and APNIC so I have experienced the policies first hand. All of this work is directly related to the work of the advisory council and the ARIN community.

Owen Delong

I have a lot of experience as a network engineer in a variety of operational roles ranging from very small businesses and SOHO operations up to and including very large ISPs. I have a tremendous amount of experience with IPv4 dating back to days when we did not have NAT in IPv4 and I now also have several years of experience with IPv6. I teach IPv6 courses and help others to deploy and understand IPv6 on a regular basis. My broad understanding and association with many different subgroups in the ARIN community allows me to better understand the diversity in the community and try to shape policies that are fair and designed to benefit the broadest possible range of the community.

Andrew Dul

- Active in the ARIN region since 1999
- Served on the AC 2002-2005

Is this this right way to IPv6?

<http://www.ipaddressnews.com>

Jesse Geddis

I have worked at all levels in business from Tech Support to building and owning a local carrier from nothing. I have worked in healthcare, movie studios, enterprise, and carriers serving millions of customers. This has given me a broad understanding of what many of the members go through when taking on network and business projects that are affected by ARIN. I am here to help. My goal is to listen to the membership, do my best to translate your feedback into policy proposals for further feedback, then serve as your advocate for those policies to the board. After listening and engaging with the community regarding the new fee schedule I have already submitted a proposal for an equitable overhaul of the current fee structure.

Scott Leibrand

In my last 6 years on the AC, I believe I have proven myself a good facilitator of community consensus, a strong advocate for what is right, and have not been afraid to take on responsibilities to make sure the AC gets done whatever needs to be done. My record should speak for itself: if you think I'm exceptionally well qualified for another term on the AC, I would appreciate your vote and/or statement of support. There is also once again a strong slate of candidates for election to the AC: please go and do your part to support the candidates you think will best serve the community.

Tina Morris

My experience as a Network Engineer is relevant to the Advisory Council because real world networks and routing must be considered when making some policy decisions. Also I have experience as an end user who understands the effort involved in making IP requests, distributing IP space, reclaiming and renumber IP ranges as well as, achieving and documenting proper IP utilization. I believe that policy needs to be vetted by actual users to ensure that it is effective, and to ensure that we are not over complicating the processes, thereby making compliance even more difficult.

Milton Mueller

- Long term experience in Internet governance
 - **Telecommunications policy (1982 - present)**
 - **ICANN (1996 - present)**
 - **RIRs (2006 - present)**
- Familiarity with key stakeholders shaping Internet resource policies
 - **Government policy makers**
 - **Small-scale ISPs**
 - **Large telecom firms**
 - **Civil society digital rights advocates**
- Critical and independent research on policy choices
- One year of service on the Advisory Council

Board of Trustees

Board Candidates

- Dr. Vinton (Vint) Cerf
- David Huberman
- Bernadette Lewis (*Not in Attendance*)
- Bill Sandiford

Dr. Vinton (Vint) Cerf

Co-inventor of the Internet, its architecture and the TCP/IP protocols. Served as chairman of the Board of ICANN from 2000-2007. Founded the predecessor of the Internet Architecture Board. A founder and first president of the Internet Society. Served at MCI from 1994-2005, during which time the MCI Internet backbone and NSF VBNS were developed by the teams reporting to me. Currently VP and Chief Internet Evangelist of Google. Chairman of the Board of StopBadWare (non-profit helping to clean infected websites). Presently serving a term on the ARIN Board.

David Huberman

I've worked in the backbone engineering industry for 14 years, most of which has been spent at ARIN. I served ARIN as a senior analyst in 1999 and 2000, then again from 2003 to 2013, ending my tenure there as a Principal. Today I am part of Vijay Gill's AS8075 at Microsoft Corporation, where I am developing and running a program to fully integrate native IPv6 inter-connectivity across all services and devices.

The most important thing you can know about my experiences is that while I was paid as an ARIN staffer for many years (and am thus intimately familiar with everything-ARIN), ARIN is a huge part of who I am. It is a company I care deeply about, and the role it performs in the backbone engineering world is of paramount importance. ARIN was never just a job for me. It was something I was, and am uncommonly passionate about.

In turn, I am running for a Board seat because my love of ARIN is so deep that I wish to continue being part of ARIN in a meaningful way. I want to be part of ARIN's future and help shape its direction in 2014 and beyond. The best way I know how to do this is as a member of the Board.

Bernadette Lewis

In August 2003, I was appointed as the Secretary General of the Caribbean Telecommunications Union (CTU). My early work was dedicated to revitalising the organisation and transforming it into a multi-stakeholder, relevant and vibrant ICT organization and putting it at the forefront of regional activities to harmonise policies and practices for the development of the Caribbean ICT sector.

In 2005, under my direction, the Caribbean achieved a worldwide first by initiating a regional, multi-stakeholder Internet Governance Forum (IGF). The Caribbean IGF has since met annually, with one of its major achievements being the promulgation of a Caribbean Internet Governance Policy Framework. The CTU has successfully implemented many of the policies in the Framework, one of the more significant being the proliferation of Internet Exchange Points (IXPs) in the Caribbean.

I believe that development of ICTs and the Internet is a collective responsibility. Therefore, since 2005, the CTU has worked in strategic partnerships with many Internet-related organisations. Of particular importance is the CTU's partnership with ARIN, with which it has a co-operation agreement. The two organisations have come together to further the growth and effective use of the Internet and its resources in the Caribbean.

In 2012, the Latin American and Caribbean Internet Registry's (LACNIC) conferred on me an Outstanding Achievement Award for my efforts towards developing the Internet in the region.

Bill Sandiford

I am the President and CTO of Telnet Communications, a growing CLEC and ISP operating in the Greater Toronto Area of Canada. I have over 17 years of experience in the ISP and telecommunications business with expertise not only in technology but also regulatory and business processes. In my current role, responsibilities include the design, deployment, and operation of all aspects of Telnet's network and overseeing Telnet's application development and professional services departments.

I have extensive group governance experience. Currently I serve as President and Chairman of the Board of the Canadian Network Operators Consortium (CNOOC), a trade association for network operators and service providers in Canada. I also serve on the Board of Directors for the Canadian Internet Registration Authority (CIRA) a member-driven organization that manages Canada's .CA domain name registry, develops and implements policies that support Canada's Internet community, and represents the .CA registry internationally. In addition, I serve on the board of the newly formed AlbertaIX, an organization that is in the process of founding an Internet exchange in Alberta. I am a former member of the board of the Toronto Internet Exchange and I have 4 years of experience as a valued member of the ARIN Advisory Council.
