

# **ARIN Meeting Agendas**

*Richard Jimmerson  
Chief Operating Officer*

# ARIN I – ARIN 44

- Agendas set by ARIN staff
- Similar format:
  - **Public Policy Meetings:** Policy discussions, global reports, recent ARIN software and service updates, statistics
  - **Members Meeting:** Department updates, financial update, Board and Advisory Council Updates
- Community input taken at open microphones, and during specific topic discussions

# ARIN 45 and Beyond (Proposed)

- Open call for content submissions and suggestions
- Agendas set by a Program Committee (could include community volunteers, elected AC members, and staff support)
- All agenda items vetted before hotel group rate cutoff
  - Allows presenters time to arrange travel
- Open agenda space filled as available
  - Policy discussions take precedence

# Potential Benefits

- Community involvement and improved transparency in agenda creation
- New content opportunities
  - Community member studies/outcomes
  - Technical service case studies (DNSSEC, RPKI, etc.)
  - Community-led panels on RIR/industry topics
- Promotes wider participation and attendance for future ARIN meetings and the Policy Development Process

# Questions to the Community

- Does the proposed approach work?
- Are there any topics you would like to see covered in future agendas that have not been mentioned?
- Is there another desired approach to agenda setting?

# Thank you.

Any Questions?
