

Policy Proposal 2003-8

End-User to Subscriber Member
Status Change

Dana Argiro / AC

Policy Proposal 2003-8

An organization which previously received IP block(s) from ARIN as end-user may change its status and become subscriber member and keep existing IP block(s) as allocation from ARIN under the following conditions and procedures:

Policy Proposal 2003-8

1. An organization wants to sub-allocate parts of IP space to organization's customers.
2. New justification process:
 - Same size block
 - Return space if not able to justify
 - Receive larger block if justified
 - Inform ARIN if space will be further allocated or assigned
3. Thereafter, the organization must request under ISP policies.
4. Status change subject to one-time fee.
