## Highlights:

- a. There is no point in having contact information in the database if those contacts don't respond.

# Policy Proposal 2003–3

- b.** Non-responsive or outdated info is better than nothing.
  
- c.** Anyone who receives an allocation from ARIN should be in whois. Downstream of that, the only people in whois (or otherwise publicly available) should be people who want to take responsibility for their own abuse complaints.

# Policy Proposal 2003–3

- d.** What's a private residence? What prevents anyone from calling themselves a private residence? Aren't organizations entitled to privacy too?
  
- e.** "It's most certainly NOT the RIR's domain to require that my home address be listed because I received an assignment."
