Information Services

- RIPE NCC has been collecting data since its inception
 - Hostcount, TTM, RIS, ...
- 10 years, time to revisit and adjust direction
- Strategy paper: RIPE 271, “RIPE NCC Hostcount in the 21st century”:
 - Measurements are necessary for long and short term operations
 - RIPE NCC is ideally suited to do them
 - Results should be made public
 - Results should be easy to use in daily operations

Information Services

The Coming Months

- Central entry point for all statistics maintained by the RIPE NCC
 - Uniform data formats
 - Consistent
- myASN feature added to the RIS
- TTM will become an open service
- DNS monitoring added
- Incident response procedure and team
- Integration with Communications Department
 - Hiring Technical Writer w/ politics experience

RIPE 47

- Amsterdam, 26-30 January 2004
